

NUMERACY

WITH A SPIN

MISSION

To excite, educate and encourage students to gain a greater understanding of numeracy using music

WHAT IS MTM?

The Math Thru Music (MTM) program combines numeracy with DJing to create a fun learning experience for all ages. No matter the style of music, the beats per minute (BPMs) play a major role in every song.

The MTM program connects these dots for students which in turn generates interest in them understanding the mathematics involved in their favorite music. MTM provides lessons on division, multiplication, percentages, fractions, ratios, algebra, integers and more which teachers can use to explain curriculum, in an interactive way.

In addition to the hundreds of testimonies from over 7,000 kids and adults who have participated in the MTM program, a recent study published by the Minister of Education (Ontario) clearly demonstrated the effectiveness of the curriculum. This graphic reflects a province-wide study among students. While Provincial scores remained stagnant at 44% between 2012 and 2017, Chinguacousy Secondary School (which has been running the MTM program for three years) increased scores from 28% in 2012 to 69% in 2017.

“We introduced the Math Thru Music DJ program into our classrooms and the kids will never be the same. Their interest in mathematics increased dramatically and once they were engaged; their test scores improved. I can’t say enough about the innovative way that MTM turns kids on to Math.” Ms. Fournier (Math Dept. Chinguacousy SS)

FROM THE PRINCIPAL'S OFFICE

“Educators have been looking for solutions to get kids excited about math. Look no further than Math Thru Music. Integers, fractions, arithmetic are taught with this powerful new tool. It’s rare to see educators, parents and students all equally excited about an academic program.”

PRINCIPAL ANDREA DEWAR – Earnscliffe PS

“MTM is changing the way we teach mathematics. By mixing curriculum with music, our students have bought in on a whole new level. Imagine kids begging to do math.”

PRINCIPAL JOHN COLTON – Central Peel SS

“It’s amazing how much one program can impact the student body. MTM has transformed the mindset of our students in an innovative way and on a very emotional level. It takes potentially boring subject matter and makes it fun. I highly endorse the program.”

PRINCIPAL FRASER KIDD – Bramalea SS

BOOK AN ASSEMBLY TODAY

Are you looking for a high-energy, interactive presentation to engage your students on the relevance of math? Look no further than the Math Thru Music 80-minute presentation. This unique session brings curriculum concepts such as percentages, decimals, fractions, ratios, algebra and more come to life using their favorite music in a way they'll never forget.

This session is recommended for grades 5-9 and can accommodate any number of students.

Recommended donation for the Math Thru Music Presentation is \$699

ORDER YOUR MATH THRU MUSIC KIT TODAY

Now it's possible for you to bring the Math Thru Music experience to your school. Every MTM kit is self-sufficient and can be used to teach math curriculum concepts such as integers, algebra, fractions, ratios, percentages, multiplication, division and more. The kit is easy-to-use and requires no technical training to set up or operate. All software and curriculum is preloaded onto the MTM laptop making it easy to get started immediately.

Each Kit Includes:

- Pioneer DJ Console
- Laptop with Rekordbox software preloaded
- Two DJ Headphones
- Whiteboard/Workboard
- All cords and additional hardware
- 30-lesson curriculum preloaded on laptop that covers the following:
 - multiplication, division, addition, subtraction, integers, fractions, algebra, percentages, ratios and more

*Recommended donation for the Math Thru Music Kit is \$1,199 including shipping and handling.
Three year warranty available on all hardware upon request.*
